B. Genomic Breeding Values (GEBV) calculator

- Samples have been genotyped but no phenotypic data
- Predict GEBV based on phenotypes and marker effects identified in the training dataset
- Input:
 - Genotype matrix
 - Phenotyping File
- Output:
 - Table of observed and predicted values for each trait

Tools

GEBV calculator (Galaxy Version 1.5.0)

Options

Input phenotype File

3: Phenotype_GEBV-10foldcrossvaldiati-on-demo.txt

(required) The file containing phenotypes and sample names (phenotypes for samples to be predicted should be entered as NA)

Column Header Containing the Sample Names

c1: Sample.Name.in.GBS.Data

(required) The column header in the phenotype file containing the sample names (NAs allowed)

Column headers for phenotypes

Manual selection of column headers

Column Header Containing the First Phenotype

c3: GY_blue

(required) The column header in the phenotype file containing the first phenotype

Column Header Containing the Last Phenotype

c3: GY_blue

(required) The column header in the phenotype file containing the last phenotype

Response Type

gaussian

(required, string) Admits values gaussian or ordinal

Lower Bound Vector (a) Column

(default to NULL, integer) Only required for censored outcomes

Upper Bound Vector (b) Column

(default to NULL, integer) Only required for censored outcomes

crossvaldiation-demo.txt**

Incidence Matrix:

Genotype-transposed.txt

GEBV calculator (Galaxy Version 1.5.0) Options

Input phenotype File
 3: Phenotype_GEBV-10foldcrossvaldiation-demo.txt
(required) The file containing phenotypes and sample names (phenotypes for samples to be predicted should be entered as NA)

Column Header Containing the Sample Names
c1: Sample.Name.in.GBS.Data
(required) The column header in the phenotype file containing the sample names (NAs allowed)

Column headers for phenotypes
Manual selection of column headers

Column Header Containing the First Phenotype
c3: GY_blue
(required) The column header in the phenotype file containing the first phenotype

Column Header Containing the Last Phenotype
c3: GY_blue
(required) The column header in the phenotype file containing the last phenotype

Response Type
gaussian
(required, string) Admits values gaussian or ordinal

Lower Bound Vector (a) Column

(default to NULL, integer) Only required for censored outcomes

Upper Bound Vector (b) Column

(default to NULL, integer) Only required for censored outcomes
